Mode of Drawing:

There will be upon the stage two glass wheels, the contents of which can be seen management, and of undoubted integrity, having first counted and examined, will place in the larger wheel 12,600 Tickets exactly alike, and having printed numbers from one to 12,600, corresponding to all the tickets sold. A similar committee, having first counted and examined, will place in tubes precisely alike the prizes, which are placed in the smaller wheel. Both wheels will then be turned until their contents are thoroughly mixed. A boy under fifteen years, blindfolded, will then draw from the larger wheel one of the 12,600 tickets, and holding it up in full view of the spectators and auditors, its number will be called by the crier appointed for this purpose, so that all present may hear. The number will then be passed to the committee of citizens, who will say whether the number has been rightly called. It will then be passed o a register, who will file it, and record it upon a book prepared for that purpose. A MUTUAL BENEFIT LIFE, NEWARK, N. J., boy of similar age will then draw from the smaller wheel one of the tubes containing a prize, which will be opened and help up to the view of the spectators and auditors. The value of the Real Estate prize will then be cried, and passed to the committee, who, IMPERIAL FIRE, LONDON, after inspection, will give it to another register to file and record. The prize thus drawn will belong to the ticket bearing the number drawn immediately before it. Thus this process will continue drawing first from the large wheel containing the tickets, and then from the small or prize wheel, until all the tubes containing the prizes are drawn. FIREMAN'S FUND, CALIFORNIA, An accurate record of the above will be kept on file, certified to by the committee of disinterested citizens officiating. The prizes below Three Hundred Dollars in value are Approximations, and will be

determined and paid as follows: The numbers of all the tickets so d being considered OLD DOMINION FIRE, VIRGINIA. in a circle, numerically formed, and having the highest number, 12,600, and the lowest, I, brought topether, then whatever number in this circle may be by lot, determined to be entitled to the Capital Prize of \$25,000 will be taken as a centre, FARMVILLE FIRE, VIRGINIA, on each side of which the next Three Hundred numbers in numerical order will be counted for the ten dollar prizes, thus making on the two sides of the Capital the Six Hundred nearest numbers, each of which will be entitled to a Real Estate Prize of Ten Dollars All the tickets drawing larger prizes will be excluded, and the circle extended MANHATTAN. FIKE, NEW YORK, to include Six Hundred on both sides of the Capital, being Three Hundred on each side, it being the purpose of the management not to puplicote prizes. Money. -- All money received from sales of Tickets will be deposited in bank im-

Transfer of Titles.-Within ten days after the drawing, parties putting Real Estate on the market under this Scheme, are required to make good, valid and PANY—said Company obligating themselves to transfer such Title in fee-simple to the party or parties who may draw such prizes of Real Estate. Tickets can be had on application, personally or by letter, to authorized Agents,

FONVIELLE'S THE RESULT OF MY OWN EXPERIMENTS, AND THAT OF MANY FARMERS IN

On my plantation in Onslow county, N. C., I have carefully tested the qualities of different varieties of Cotton Seed, among them the Dickson, obtained directly at a high price, and with greatly improved results. In 1872 I procured, directly from Mr. w. W. Simpson, of Georgia, a quantity of his seed, and with no more manuring that year and the present. I have realized an increased yield of from one fourth to one-third from my general crop, and one small patch of two and one-half acres yielded Nine Hundred Pounds of Lint Cotton per Acre.

Lympow prepared to offer planters Seed, for which Lelaim the hollowing. I am now prepared to offer planters Seed, for which I claim the tollowing: 1st. Having been obtained originally from pure Simpson See!, by careful selection and cultiration they have certainly not degenerated. vation they have certainly not degenerated.

2d. That I plant but this variety and none other, and one MY own corron, and in every way preserve unmixed the furity of the seed

3d. I shall sell no seed except select seed of the first product of selected seed.

4th. The seed offered for sale will make one-fourth more than mixed seed, and one-half more than the common Cotton, ALL THINGS EQUAL. than the common Cotton, ALL THINGS EQUAL.

The above seed can be bought for cash only at the following rates: Ten bashe's or over. It is above seed can be bought for cash only at the following rates: Ten bashe's or over. It is day of April, 1814, and upon failure to present them within the time prescribed, the sent taken and sent to purchaser. They may be ordered directly from myself or from Agents—Mesers. Edwards & Hall, Wilmington and Tar Landing, Condow county, N. C., or Mersra. Faison & Hicks, at Faison's Depot, Duplin county, N. C.

EDWARD W. FONVIELLE, Jacksonville, uslow county, N. C.

EDWARD W. FONVIELLE, Jacksonville, uslow county, N. C. EDWARD W. FONVIELDE, Jacksonville, Inslow county, N. C.

From many testimonials favorable to my Seed, I add the following, by gentlemen well known as planters of invelligence and character, equal to any in North Carolina:

"We certify that we are generally acquainted with the most prolific and best cotton planted in our section of the State, and we unhesitatingly say the SIMP SON COTTON SEED, raised

D J MIDDLETON, " A J HURST, Jr., FAISON, N. C., November 8th, 1872. THE BEST,

ALWAYS RELIABLE,

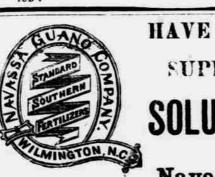

OVER TWO THOUSAND!

Col. Forvielle—Dear Sir: Your letter, owing to its delay, came to hand several days too late. I cannot give a statement of difference of Dickson and Simpson Cotton. I did not weight all the Dickson. I made on the one and-a-half acre of Simpson 2 400 pounds of Seed Cot on. It rained so much, and other circumstances, made it inconvenient to weigh the Dickson and Pealer.

RICHLANDS, Onslow county. N. C., January 5th, 1874. E. W. Fonvielle - Dear Sir: I must confess until the past season that I thought the difference in Cotton Seed was in land cultivation and mann e. I tried the Simpson Seed in a field near my mill, planting two rows with your Seed and tour rows of my Seed, which was the common cotton. I did not pick and weigh as you requested, but I give it as my opinion that the two rows planted with your seed made as much as the four planted with my Seed. The balance of crop planted in your seed done equally as well. The two and four rows were all manared and cultivated equal throughout the field.

Vents &c. F. The MPSON. We guarant e every package to be the and cultivated equal throughout the field. Yours &c.,

['rom the "Southern Cultivator," December No. 1870]
The opin on of Col. Wm. F. Roseits, a Planter of South Carolina, on varous kinds of Cotton "Mr. Sparta Dickson has evidently managed to dwarf his stalks and increase the bearing. "Impson though more uniformly prolific. It is to be bojed, for the public benefit, Simpson's Prolific may soon be surpassed."

Wilmington, N. C., Jan. 6th, 1874.
